

Quality Report

Brand : **Dr. Baumann** Product : **Super Cream**

Q	Ingredient	Description	Function	Source	Page
+++	AQUA	The human body exists for about 65% out of water and is of vital importance for the functions of the body and the skin.	solvent	INCI/EC	List
+	ISOCETYL PALMITATE	Hexadecanoic acid, isohexadecyl ester	emollient	INCI/EC	List
	BUTYLENE GLYCOL	Butane- 1, 3- diol. The best alternative for propylene glycol (PG can cause irritations).	humectants / solvent	INCI/EC	List
+++	UREA	Is an essential element of a healthy skin and the natural moisturizing factor (NMF or Natural Moisturizing Factor) of the skin.	antistatic agent / humectants	INCI/EC	List
	STEARYL ALCOHOL	Octadecan- 1- ol	emollient / emulsion stabiliser / opacifier / viscosity controlling agent	INCI/EC	List
++	BUTYROSPERMUM PARKII	Sheabutter = Oleum Butyrospermi Parkii. Very good natural oil with a high degree of skin related lipids. Shea tree, ext. Extractives and their physically modified derivates such as tinctures, concretes, absolutes, essential oils, oleoresins, terpenes, terpene- free fractions, distillates, residues, etc., obtained from Butyrospernum parkii, Sapotaceae	emollient	OEKO	388
++	BUXUS CHINENSIS	Jjoba oil = Oleum Simondsiae Chinensis. Very good natural wax that is very similar to the waxes in the human skin. Jjoba, ext. Extractives and their physically modified derivates such as tinctures, concretes, absolutes, essential oils, oleoresins, terpenes, terpene- free fractions, distillates, residues, etc., obtained from Simmondsia chinensis N., Buxaceae . It consists primarily of the glycerides of the fatty acids (Buxus chinensis)	emollient	OEKO	333
	POLYGLYCERYL-3 METHYLGLUCOSE DISTEARATE	No further information was found.	emulsifying agent	INCI/EC	List
	SUCROSE STEARATE	Sucrose stearate	emulsifying agent	INCI/EC	List
++	OENOTHERA BIENNIS	Evening Primerose Oil. Oleum Oenotherae Biennis. Natural oil of highest quality. Improves the elasticity of the skin, diminishes the water loss, by protecting the skin barrier; very well suited for the treatment of neurodermitis,	emollient	Kurs	167

		eczema and very dry skin because of its high degree of linolic acid.			
+++	LECITHIN (AND) ALCOHOL	Lecithin solved in alcohol: fat similar active agent that occurs in the skin cells. High concentration of essential fatty acids, similiar to those of the human skin.	antistatic agent / emollient / emulsifying agent	Wörter	160
+++	PANTHENOL	Provitamin B5 or D-Panthenol. Inflammation impeding and anti-irritating, firming, humectant. Penetrates deeply into the skin, water binder, transformation to pantothenic acid in skin and hair, strengthens hair roots and - shafts, causes coloring of the skin, protects against exzema, brittle and chapped skin.	antistatic agent	INCI/EC	List
+++	D-ALPHA- TOCOPHERYL ACETATE	Natural vit. E acetate, the vitamin E which is perfectly tolerated by the skin (dl-alpha-tocopherol is synthetical, and causes allergies in some cases). Best vitamin E for the skin. Mainly protective vitamin. Is the storage form of natural vitamin E. In the skin the acetate form is bioconverted to the non-acetate form. It is the most important skin-protecting vitamin, which protects the skin against UV-radiation and oxygen radicals. Vitamins are an essential element for a healthy human body and a healthy skin.	NS	Wörter	274+275
+++	GLYCOLIPIDS (AND) PHOSPHOLIPIDS (AND) SPHINGOLIPIDS	Complex of lipids, that are an essential part of the hydrolipid layer of the skin and of the skin itself. Important lipids in the deeper layers of the epidermis. Out of these fat substances ceramids for the barrier function of the horny layer are being developed within the upper skin layers.	NS	Kurs+Wörte	138+111
+++	ALLANTOIN	Occurs in many plants and the human skin. Has wound healing and smoothening properties, accelerates the cell regeneration. Especially suited for the treatment of acne. Metabolism product of the human body. Has a stimulating effect on the forming of new cells as well as recovering stimulating qualities.	NS	Wörter	16
++	OLEUM SESAMI INDICAE	Sesame oil. High concentration of essential unsaturated fatty acids, prevents fast oxidation and absorbs UV-rays.	emollient	SL	381
+++	SODIUM LACTATE	Is a milky acid turned into a PH-value of 5,5 and because of this an essential element of the natural moisturizing factor (NMF of Natural Moisturizing Factor)	buffering agent / humectants	SL+OEKO	388+392

		and the acid protecting layer of the skin.			
+++	RETINYL PALMITATE	Is the storage form of vitamin A. It is bioconverted into natural vitamin A in the skin. It activates the cell renewal and because of this has a special effect on prematurely aged skin and a strong regenerating effect when used regularly. Vitamins are an essential element for a healthy human body and a healthy skin.	additive	INCI/EC	List
+++	SODIUM ASCORBYL PHOSPHATE	Is the storage form of vitamin C. It is bioconverted into natural vitamin C in the skin. Protects the skin against the harmful effects of the dangerous oxygen radicals. Vitamins are an essential element for a healthy human body and a healthy skin.	NS	Kurs	179
+++	LACTIC ACID	Milk acid. Natural component of the acid protection coat of the skin, firming, moisturizing, bleaching, PH-regulation.	buffering agent / humectants	GP+OEKO	47+336
	XANTHAN GUM	Xanthan gum	binder / emulsion stabiliser / viscosity controlling agent	INCI/EC	List
++	CAROTENE	Karotin = CI 75130 = Carotin Oil. Protects against skin problems. Healing in case of vitamin deficiency.	NS	OEKO	298
Total score of this product: 80/100					
Total : 22 ingredients					
11 ingredients are perfect for the health of your skin (+++).					
5 ingredients are very beneficial to your skin (++)					
1 ingredients are beneficial to your skin (+).					
5 ingredients are neutral and don't have any clear positive or negative effect on your skin.					
0 ingredients can damage the health of your skin and should be avoided (? or ???).
